Local Degree Apprenticeships in Engineering – Year 13 Students Apply Now!

Are you interested in a career in engineering?

Are you interested in becoming a qualified engineer via a degree apprenticeship route?

If this is you, there are fantastic opportunities locally and Edwards Vacuum's is a brilliant employer who offer generous packages and a lot of support. Our Year 12 students met with Edwards Vacuum's last year and they also met an apprentice who shared her experiences. I was very impressed by what the company had done to support her. If you are interested in applying for these degree apprenticeships, please apply now following the links below:

Exploring the Engineering Sector

From idea to career

Explore 12 areas of engineering

Engineering is a very large sector. There are thousands of jobs for young people asking for a wide range of skills. Perhaps you're creative, or analytical. Perhaps you're good with your hands, or you simply love number crunching. Chances are there's a career in engineering for you. Fancy designing the next Dyson hairdryer? How about creating a robot that can clean your home or how about having a passion for the environment and holding a long term wish to solve our climate crisis? Whether you're a boy or a girl, no matter what your background, there's a career in engineering for you.

If you are interested in reading a guide to 12 different engineering disciplines showing different pathways into engineering, then download the 'From Idea to Career' PDF [here](#)

Guide for Parents with young people with Special Educational Needs and Disabilities (SEND) moving on to Post-16 studies

[CLICK HERE](#)

Moving on after secondary school can be a daunting prospect for all students, but more so if a student has SEND. Questions such as: Will my college understand my needs? Will the college have a course that it right for me? Will I be able to continue progressing? Will I get the support I need? These are just a few questions that students may have. If you are a parent of a student who has SEND, then this guide is a very helpful booklet to support you to support your child with their transition.

Gildredge House supports all students with their Post-16 applications and additional support is given to students who have SEND, have English as an additional language (EAL) or have challenges at home. Bespoke sessions which include one to one careers advice and support are available to help all our students with their transition. If you have concerns about your child's transition. If you have concerns about your child's transition that you would like to discuss, please email the Careers Department s.bray@gildredgehouse.org.uk

Essential Skills

Going for Gold with SkillsBuilder

Gildredge House is a SkillsBuilder School. SkillsBuilder aims to create a universal language to support students to develop their employability skills. We are currently embedding SkillsBuilder into our curriculum and we've already started using the Framework for the Year 10 work experience programme as well as the Year 9 Take Your Child to Work Day. Even students in Key Stage 2 will begin to understand the SkillsBuilder language.

If you are interested in supporting your child to improve their employability skills, why not look at the Framework. Perhaps you can pitch your own employability skills against the Framework too.

[The Skills Builder Partnership](#)

Watch this brief 2 minute video to discover more [The Skills Builder Partnership](#)

SkillsBuilder Weekly Challenge

If you have time, why not try out a quick SkillsBuilder Challenge by visiting the Skills Builder Homezone or scan the QR code below. This week's challenge is around one of the eight skills 'Speaking'

SKILLS
